## Experience

### 2U Inc. - Web Developer

June 2014 - Present

Built and deployed application systems, marketing sites, and learning management systems for major U.S. universities' online graduate degree offerings.

Practiced agile methodologies in a deadline-driven environment. Worked with mature codebases using a variety of languages and frameworks.

Integrated student data with unique university systems and Salesforce.

Independently conceived and developed greenfield efficiency projects such as an extensive test suite to check whether technical prerequisites are in place and an internal Chrome app to help new employees look up jargon terms.

### General Assembly - Expert in Residence

July 2015 - Present

Assisted teaching night classes on back-end web development in Ruby and Ruby on Rails. Occasionally taught classes independently and held regular office hours.

Helped students debug errors, plan projects, and understand concepts taught in lecture.

### Freelance Journalist/Translator

Nov 2008 - Feb 2014

**Skift - Trends Analyst:** Independently researched and produced bi-weekly in-depth reports on travel industry trends with C-level interviews and data elements. Spoke on behalf of the company in broadcast media.

**Bright Wave Media - Writer, Translator, Photographer:** Helped start Yokohama Seaside, Japan Beer Times, and Koe Magazines which cover the local art and cultural scene in both Japanese and English. Interviewed sources in Japanese. Took photos and assisted with layout.

Work has also appeared in: Quartz, The Atlantic, Business Insider, City Limits, WNYC and other outlets. Translated Japanese news for Nippon TV.

## Projects
