Experience

2U Inc. - Web Developer

June 2014 - Present

Built and deployed application systems, marketing sites, and learning management systems for major U.S. universities' online graduate degree offerings.

Integrated student data with Salesforce and university systems.

Practiced agile methodologies in a deadline-driven environment. Worked with mature codebases using a variety of languages and frameworks.

Independently conceived and developed greenfield efficiency projects.

Modern Lend - Full Stack Web Developer

Jan 2016 - Present

Created and maintained custom CRM / lead acquisition website using Rails, Postgres, and Boostrap for a startup that helps non-citizens build U.S. credit.

Currently developing a REST API to power the company's services and third party integrations which will eventually serve web, iOS and Android clients.

General Assembly - Back End Web Development Instructor

July 2015 - Present

Developed curriculum and taught night classes on web development in Ruby and Rails for students with varying programming backgrounds.

Took students from basic unix and `puts "hello world!"` to deploying working apps to the web with persistent storage.

Freelance Journalist/Translator

Nov 2008 - Feb 2014

Skift - Trends Analyst: Independently researched and produced bi-weekly in-depth reports on travel industry trends with C-level interviews and data elements. Spoke on behalf of the company in broadcast media.

Bright Wave Media - Writer, Translator, Photographer: Helped start Yokohama Seasider, Japan Beer Times, and Koe Magazines which cover the local art and cultural scene in both Japanese and English. Interviewed sources in Japanese. Took photos and assisted with layout.

Work has also appeared in: Quartz, Business Insider, City Limits, WNYC and other outlets. Translated Japanese news for Nippon TV.

Projects

TangoChan: Developed an application for learning Japanese vocabulary on a four-person team.

CameraPhile: Mashed up Flickr and Amazon APIs to create a comparison shopping tool for cameras.
